Esto Triramdani Nurlustiawan

PROFILE

Fullstack Developer with 5 years of experience building scalable, secure enterprise web applications and digital transformation solutions in manufacturing. Skilled across the full Software Development Life Cycle (SDLC), from solution design and system integration (including SAP ERP via BAPIs) to development and deployment, using TypeScript, React, Next.js, Node.js, NestJS, and RESTful APIs, with databases such as MySQL, PostgreSQL, and MongoDB. Proven record of leading digitalization projects, including an Energy Management System that won Diamond Tier at TKMPN XXVI and an in-house eSign platform. Experienced in AI-assisted engineering workflows that speed up delivery while maintaining code quality and security standards, and in mentoring junior developers.

EXPERIENCES

PT Amerta Indah Otsuka

Software Engineer (Manufacturing) Sr. Staff | Sukabumi, West Java | Jan 2022 – Present

PT Amerta Indah Otsuka is a FMCG-manufacturing company. The well-known products are Pocari Sweat, Soyjoy, etc.

- Engineered seamless system integrations between web-based platforms and corporate SAP ERP via Business Application Programming Interfaces (BAPIs), eliminating data opacity across critical plant operations
- Managed the full Software Development Life Cycle (SDLC) for business-critical manufacturing applications, driving solution design, development, unit testing, and deployment using Node.js, Nest.js, and React/Next.js
- Lead the technical architecture of an enterprise Energy Management System, earning the Diamond Tier Award (highest tier) at TKMPN XXVI and directly contributing to the company's National Lighthouse Industry 4.0 recognition.
- Led our in-house eSign platform as Project Leader and Implementor. Rewarded by company as “Best Process Efficiency Project in 2026”.
- Implement Single-sign On to achieve passwordless login across systems.
- Mentoring the web developer internship program (2 cohorts/year) by designing a strategic syllabus and enforcing strict engineering standards (clean code, documentation) to mitigate technical debt and ensure seamless knowledge transfer despite high turnovers.

Generasi GIGIH 2.0 (by GoTo Impact Foundation)

Frontend Engineering Mentor | Remote | August 2023 – December 2023

- Served as a technical panelist for the Frontend Engineering Capstone Showcase, evaluating final projects based on code quality, feature implementation, and adherence to industry best practices.
- Mentored participants in the Kampus Merdeka program, providing strategic guidance on tech stack selection and conducting rigorous code reviews to improve implementation of React, Redux, and TypeScript.
- Fostered engineering independence by teaching advanced debugging techniques and effective technical research strategies (e.g., maximizing search engine efficacy for error resolution).

PUBLISHED PROJECTS

IPB Online Job Fair Website https://jobfair.ipb.ac.id

September 2022

- Role: Full-stack Developer
- Tech stacks: React, React Context API, TypeScript, Tailwind CSS

Ewan Jaya Kastara Websites

- EJ Medical (company profile, landing page) https://ewanjaya.com
- EJ Books (web app) https://books.ewanjaya.com

February 2026 – March 2026

- Role: Full-stack Developer
- Tech stacks: Next.js, TypeScript, Tailwind CSS, MySQL, Native PHP

SKILLS

- **Languages & Frameworks**: JavaScript, TypeScript, Node.js, PHP (Laravel), React.js, Next.js, React Native, Redux Toolkit, Tailwind CSS.
- **Frontend & UI/UX**: Responsive Web Development, Component Design, Tailwind CSS, Performance Optimization, Flutter.
- **Backend & Database**: Express.js, Nest.js, Sequelize ORM, MySQL, PostgreSQL, SQL Server, MongoDB, WebSocket (Socket.io).
- **Infrastructure:** Docker (containerization), CI/CD using GitLab's workflows, Proxy Manager, Loading Balancing, general linux skills (networking, setting up VM servers, etc.)
- **Emerging Tech**: AWS Infrastructure, Generative AI, RAG implementations, Spec Driven Development, MCP (Model Context Protocol), AI-assisted debugging & rapid prototyping.

Licenses & certifications

EF SET English Certificate
Score 73/100 (C2 Proficient)
Issued by English First Standard English Test, August 2026
https://cert.efset.org/en/X2ce4Z

EDUCATIONS

BINUS University | 2022 – 2024 Bachelor Degree (S1) - Information Systems Extension Class (GPA 3.77/4.00)
Thesis, "*Web-Based Intelligent Technology for Diagnosing Rice Plant Diseases to Enhance Food Security in South Kalimantan.*"

IPB University | 2018 – 2021 Associate Degree (D3) - Computer Engineering (GPA 3.60/4.00)
Final Project, "*Development of a Web-Based Network Infrastructure for Poverty Data Collection Services at the Langonsari Village Office, Bandung Regency*."
